

An initiative of SEBI & NISM

#### Agenda

- Importance of learning about money
- What is financial planning
- SMART goals
- Understanding net worth
- Protecting wealth
- Concepts of budgeting & saving
- Investment
- Some do's and don'ts

- Importance of learning about money
  - Enables us to take informed decisions about money

#### Money matters: What is wrong?

- Investment, insurance or tax planning?
- Peer advice
- Emotion driven
- Greed and fear
- Overspending

## WHAT IS FINANCIAL PLANNING?

• The financial planning process

Gather financial data

Identify goals and risk appetite

Identify gaps

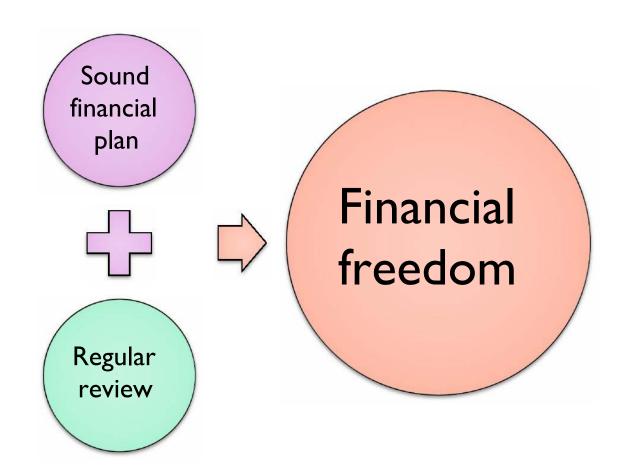

Prepare a plan to bridge the gaps

Implement the plan

Review periodically

## Ni&M

- What is a Goal?
  - Goals are statements about where we want to end up
  - They are what you want to achieve

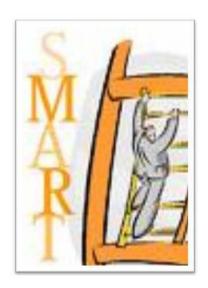

- Are all goals achieved
  - No, Most of our Goals are not achieved

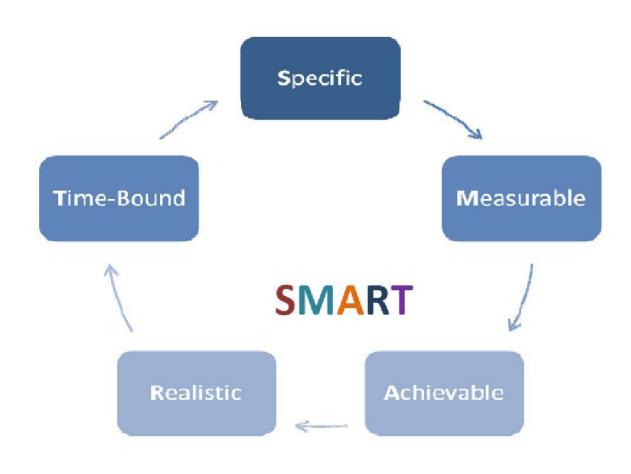

- What prevents you?
  - Are these goals clearly defined?
  - The goals seem to be vague
  - They need to be clearly defined
  - Convert them in to SMART goals

## Ni&M

# NiSM Let us restate /revise your goals

1.	 	 
2	 	 
3		 
4.		
5		

## Steps to Achieve Goals

- 1. Understand Current Networth
- 2. Protect Current Networth
- 3. Manage Regular Expenses
- 4. Generate Surplus to Invest

• Exercise: Mr. Dipak Shah's family

## What is your current net worth?

Networth = Assets - Liabilities

Assets: All those you own

Liabilities: All those you owe

1. List down all those things you own

2. List down all those things you owe

## Calculating your net worth

- Assets
  - Assets or possessions?
- Liabilities

- So, What is your net worth today?
- Remember, your net worth can change every day, depending on the value of your assets

- Remember once again:
  - Net worth is your wealth
  - Net worth is the difference between your assets and liabilities

- Change in net worth
  - Change in value of assets
  - Change in liabilities
  - Savings / spendings

#### Protecting your wealth

- Personal risks
  - · Life
  - · Health
  - Liability
- Property
  - Home
  - Vehicles
- Liability

## Quick Recap

- Importance of Setting Goals
- Steps to Achieve Goals
- Understanding net worth
- Protecting the net worth to ensure that our net worth is not eroded

## **BUDGETING**

 Budget enables you to become aware of how money comes in and where it is spent

- Importance of budgeting
  - Managing regular and irregular expenses
  - Generating surplus for investments / savings

## **MAKING A BUDGET**

#### Mantras for success

- Prepare the budget
- Stick to the budget
  - Check out of budget expenses
- Ensure there is a surplus
  - If not, have a serious look at some of the expenses.

# \* INVESTING THE MONEY

SURPLUS → INVESTMENT

#### Investment mantras

- Understand the power of compounding
- Diversify your investments
- Do your own homework or hire wise experts
- Understand the fundamentals
- In case of doubt, ask. Do not sign the dotted line till you get satisfactory answer

## Understand power of compounding

 If you save Rs 1000 a year for 10 years at a bank which gives you interest at 8% per year, how much money you will have at the end of 10 years?

Saving per year	Rs. 1,000
Rate of return (per year)	8%
No. of years	10
Wealth accumulated	Rs. 14,487

## TAIGI

### Understand power of compounding

- If you save Rs 1000 a year for 10 years at a bank which gives you interest at 8% per year, how much money you will have at the end of 10 years?
- If you save similar amount for 20 Years how much it will be?

Saving per year	Rs. 1,000	Rs. 1,000
Rate of return (per year)	8%	8%
No. of years	10	20
Wealth accumulated	Rs. 14,487	

Saving per year	Rs. 1,000	Rs. 1,000
Rate of return (per year)	8%	8%
No. of years	10	20
Wealth accumulated	Rs. 14,487	Rs. 45,762

## Understand power of compounding

- What do we understand from this?
- Why is the difference between 10 Year investment and 20 Year investment so much?

#### Remember inflation

- What is inflation?
- How does it impact us?

## Steps to Wealth Creation

- Have a goal
- Start today
- Invest regularly

## Ni&M

## Be Careful before investing

- Do not believe if someone promises high returns.
- Do not get carried away by the commission agent promises
- Identify a trusted advisor
- Do reference check of the advisors
- Do your own research about the product before you buy,
- Learn Basics skills of Money Management
- Know the costs
- Only invest in regulated options through regulated intermediaries.

Creating wealth is not difficult.

All you need is self discipline in your spending and investing habits

## THANK YOU!
