What is a Live Stock Trading Competition?

The Live Stock Market Trading Competition is an exclusive initiative by ISFM to bridge the gap between classroom learning and real-world trading. This competition provides students with a hands-on opportunity to trade in the live stock market using real-time data, applying all the strategies and tools they've learned in class. Participants will compete under professional supervision, simulating actual trading conditions.

Whether you are a beginner or an aspiring pro, this is your chance to test your skills, build confidence, and experience the thrill of real-time decision-making in the stock market.

How Students Will Benefit (Career & Placement Perspective)

Participating in this Competition Not Only Boosts Trading Skills But Also Opens Doors for Placement Opportunities :

- ❖ **Live Trading Exposure :** Gain practical experience that impresses employers.
- ❖ **Portfolio Building :** Create a trading track record to showcase during interviews.
- ❖ **Recognition & Certification :** Top performers receive certificates, awards, and internship/job interview opportunities.
- ❖ **Mentorship by Experts :** Interact with real traders and financial market professionals.
- ❖ **Resume Value :** Mentioning live competition participation adds value to your profile.
- ❖ **Recruiter Visibility :** Performance shared with hiring partners and recruiters from stockbroking firms, fund houses, and financial institutions.
