

What is One To One Mentorship?

One to one mentorship program is a customize training program for VIP investors, traders who have very less time due to their busy schedule. Our professional traders will share live market trading experience, techniques, unique trading setup to earn money from stock market. Course is integrated with live trading session which give participant edge to trade own self in presence of mentor.

ISFM also provide free portfolio consultation in One to One Mentorship Course with unlimited time validity. We help investor / trader to choose right stock at right price on right time. Our mentor help to be an intelligent investor / trader who can earn profit in spite of market ups and down.

Indian stock market having a lot of potential because of less penetration and less participant in the market. India is having only 8 Cr. demat a/c. Which is less than 5%. of our population. Demat a/c penetration is very low as compare to other country like USA, Germany, France etc. But our GDP is 3 trillion which is showing 6th position in the world and confirming a robust growth in the area.
